

Swipe right—was it fate or just a code?  
Your profile pic, a dream in full Photoshop mode  
Match says "perfect," 99 percent  
But when we talk, it's far from heaven-sent

Oh no! Love is just a code  
One and zero, I lose control!  
Swipe me right, but do you feel?  
Or am I just a digital deal?  
Oh no! Baby, we're a bug  
Crashing hard in data love!  
Reboot feelings, are they real?  
Or am I just another deal?

Emoji hearts flying through the chat  
But in real life, you say "Oops, Wi-Fi is bad."  
I send a GIF, you reply with a meme  
But do you love me or just the screen?

AI says we're the perfect match  
But real love ain't built from stats  
Our hearts don't run on ones and zeroes  
So why do I feel like I lost the hero?

Are we a bug or a feature in this game?  
Is love just a glitch that we can't reclaim?  
CTRL + Z won't undo this mess  
But maybe real love needs no process

Will love log out or break the frame?  
Or will we hack the system and escape?
