

My father is a deep-sea diver  
He likes to burn food in the oven  
My mother says she wishes she had been  
A doctor she only made phlebotomist

My aunt lives in a ramshackle farmhouse  
And draws circles on paper  
My friend always takes me on  
Field trips in her dreams

I asked for advice from a purple fairy  
She said you need to be an underwater fairy

I don't want to be an adult  
My father said go with your gut  
Please help me I was not prepared  
To be so very scared

It's inspiring how unhinged he is  
But open mind you'll just let anything in  
He told me a lot about the jungle  
But I'm so afraid of monkeys
