

The way you move is like a dance floor under the sand
Like lightin' on a planet full of sun
Like math
You A-A-plus and then some
Then some and then some

Wanna be your direction
Wanna be your correction
Wanna be your affection
What you sayin'? What you sayin'?

Do you know any cool words? 'Cause I don't
But if I did
I would say them all the time
I mean
I know one
And that's my favorite one
So let me say it

I want you to be my supersonic man
I want you to be my supersonic man
And even if you can
You better be my supersonic man

Can you float around? Nobody else can
You gotta be my supersonic man

I want you to be my supersonic man
I want you to be my supersonic man
And even if you can
You better be my supersonic man

Can you float around? Nobody else can

You gotta be my supersonic man

I want you to be my supersonic man

I want you to be my supersonic man

And even if you can

You better be my supersonic man
