

Step by step, the ground is shaking
Feel the pulse, the fire waking
Spirits rise, the echoes call
Feet are flying, never fall!

Hey! Hey! Hands are reaching
Feet like thunder, never fleeting
Speed is rising, burning bright
Breaking through the dark of night!

Turn and leap, the drums are beating
Heart is racing, time retreating
History flows in every sound
We are dancing, strong and proud!

Hey! Hey! Hands are reaching
Feet like thunder, never fleeting
Speed is rising, burning bright
Breaking through the dark of night!

Hear the call, the voices sing
Step by step, the echoes ring
Faster now, the flames arise
Lost in rhythm, lost in skies!

Through the storm and endless rain
The dance will rise, the song remains
Feel the fire deep inside
River flows and won't subside!

Hey! Hey! Hands are reaching
Feet like thunder, never fleeting

Speed is rising, burning bright
Breaking through the dark of night!

Thundering hearts, the beat won't die
Riverdance beneath the sky
We are one, the rhythm stays
Burning bright through endless days!
