

Elektrik!

[Verse]

Formula

Litter in my brain like a nest

Moving all day long in my head

Spinning round again

[Verse]

Redesign

Ship you out and charge it again

If you wanna try it instead

Spin it round again

[Chorus]

Keep the heart from falling off the chain

Power zero gravity remains

Everything is swaying in the rain

Elektrik

Elektrik

Elektrik

Elektrik

[Verse]

Light the high

Let me know the target is hit

Let's go down and flip it again

Spin it round again

[Chorus]

Keep the heart from falling off the chain

Power zero gravity remains

Everything is swaying in the rain

Elektrik

Elektrik

Elektrik

Elektrik

[Bridge]

Everything is swayin'

Everything is swayin'
